KY4LAW Net Control Script

Anderson County ARES Net

OPERATION FORMAT AND NET CONTROL REPORT

@ 8:28 P.M. Announce: All stations please stand by for the Anderson County ARES Net

CQ, CQ, CQ

It is time for the Anderson County ARES Net. This Net meets each Thursday night at 8:30 P.M. or 2030 hours local time on the 146.835 repeater. If you have found us for the first time tonight, this repeater has a PL tone of 107.2 so please ensure you have that programmed into your radio so you can join the net tonight.

This NET meets to exercise various stations for the purpose of serving as Official Emergency Stations in Anderson County, Kentucky, in time of disaster or other emergency. The net can also be used for the passage of other emergency and non-emergency traffic and announcements and all are welcome to participate.

Stations wishing to become a member of the local ARES organization can contact Net Control during comments for additional information and point of contact. This is an informal net and Net Control for tonight's session is:_____ and the name of net control is:_____.

First of all, before we tie up the repeater for a prolonged period of time is there any emergency or priority traffic to be listed at this time? If so, please call:_____.

Participants are reminded that if they should have emergency or priority traffic during the net they should call for a break by calling "Emergency" or "Break, Break" and every effort will be made to assist with your traffic.

We will now accept check-ins from mobile and short time stations. Stations are asked to check-in with your call sign, both alpha numeric and phonetically, first name, and county of operation. Mobile or short time stations, please call:_____.

We will now begin accepting routine check-ins. Please check in with your call sign, both alpha numeric and phonetically, first name and your county of operation. At the completion of check-ins, we will return to the top of the list to take comments and announcements. Routine check-ins, please call: _____.
